17. Does the Institution have Management Information System ?

Yes

If yes, give a brief descripton and a list of modules currently operational (maximum 500 words)

1. Admission - Admission modules help in admission process of all UG and PG students of the institute. They facilitate data collection, segregation, and preparation of reporting status of candidates in the institution with their complete personal data. The module also helps in allotting the different sections to the students and preparing the attendance sheet. 2. Examinations - This module takes care of the exam activities in

the form of collection of the question papers, collection and compilation of continuous internal evaluation and submission of marks and sending them to the University in due time for declaration of results. 3.

Administration - The day to day data related to attendance of faculty and nonteaching staff is part of this module which also helps in monthly salary payment to all employee of the institute including maintenance of leave records. 4. Academic Activities -

The information related to the students' details, classes, Lesson Plans, course details, class status, attendance analysis, and other related information is part of this module. 5.

Stores Management - This module helps in vendor registration, tender procedure used for procurement of consumables and equipments, the repair and maintenance of institute's infrastructure such as receiving tenders, preparing comparative statements, preparing orders and getting the necessary administrative approvals of the procurement placing orders. It also keeps a record of existing stock. 6. Time Table -

Preparation and display of academic calendar and timetables. 7. Attendance

- The Institute has online attendance recording system. All students and teachers register their attendance. This attendance system is connected to the attendance module of the ERP which provides analysis part and facilitates decision making related to attendance absenteeism. 11. Leave Management -

Through this module all faculty members of the institute apply for the types of leave they are entitled to and their application goes for necessary approval and record of total number of leaves consumed throughout the year. And the balance leave available with the applicant are maintained. 12. Faculty

service records - This module keeps service record of all faculties. 13.

Fees Payment - Students through this module can pay their annual tuition fee, exam fee and other fees using online mode. 14. Accounts and Finance -

Institutes' accounts and finance department uses its accounts and finance modules for their day today accounting.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The College follows the curriculum designed by Biju Patnaik University Technology, Rourkela, Odisha. At the beginning of every academic year, the college chalks out an academic calendar. The Principal of the college sets the time table schedule of each subject for teaching which includes lecture hours, practical classes and list of holidays. The head of the departments conducts academic planning meeting to plan and organize the schedule of lectures and distributes the syllabus among the faculty members of their departments. The faculty members are instructed by the head of departments to complete the syllabus within stipulated time. If, for any reason, a faculty fails to finish his/her syllabus within the stipulated time, he/she is being asked to arrange extra classes for his/her subject. New Text Books & Reference books are ordered as per the university guidelines and the subject teachers and students. For implementation of curriculum, teachers have adopted teaching methods as per specially designed GITA Teaching & Learning process which includes presentations, assignments, and seminars, quiz tests, surprise tests etc. for effective learning. The Board of Studies of the University prepares the curriculum of the subjects. However, the institution plans bridge courses and value added courses to meet the requirements of the industry and bridge the gap between academia and industry. The college receives regular updates of circulars through letters and emails from the university, regarding the changes or modifications in the curriculum. The Principal informs the concerned departments about changes in curriculum and asks to plan the lesson accordingly. The faculty members receive all sorts of support from college to implement the curriculum. Timely meetings are conducted and instructions are given for submission of assignments and conduct unit tests and class tests as per plan and publish the result before semester examination. To facilitate faculty members regular FDPs are conducted in the subject areas and beyond the syllabus. The institution has designed bridge courses to fill the gap between the expectations of the industries and curriculum adopted by the affiliating university.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

The Academic Council of the Institution has set a bench mark of 70 as satisfactory level of feedback and is revised as per need. The Institution collects the feedback of individual faculty members twice in a semester through the office of the Dean, Academics. The mode of collecting feedback is through on line (e-feedback system) to ensure transparency in the system. The data collected from the feedback is thoroughly analyzed by the Dean, Academics and is kept for discussion in the Academic Council of the Institution. After thorough scrutinisation and discussion, the Academic Council advises the Departmental Academic Committee to take remedial measures for the faculty members who have achieved less than 70 feedback for further improvement. As a first step, the Department Academic Committee recommends the concerned faculty members to undergo Faculty Development Programme. As a second step for improvement the concerned faculty members are advised to accompany the senior faculty members to the class and take note about the quality of teaching and delivery mode. They are also advised to observe the teaching methodology of senior faculty members to achieve better skills. The faculty member acquiring the highest feedback will be recommended for an advanced increment along with the annual increment. He/She is also encouraged with a letter of appreciation from the head of the institution. Besides, The IQAC also collects feedback from all its stakeholders like parents, industries where the students of the institution are employed. Feedback is also taken from students who have passed out from the institution this year. All the obtained feedbacks are duly analysed by the IQAC thoroughly and later placed its report before the Academic Council of the institution with proper suggestions and corrective measures. The Council after vivid discussion formulates new ways for improvement of the students.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.1.1 – Demand Ratio during the year

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

An engineering graduate during the four years of the course is subjected to many phases of life where a personal touch coupled with educational and professional guidance is very vital. And this is achieved through our “Student Mentoring System.” For finer nuances e.g. career options or fear of a subject/course need greater involvement of the mentor. A designate mentor remains with the respective mentees for the entire four years. A similar system as discussed above, namely ‘Faculty Advisor’ exists in this college since its inception. This system is put diligently into practice and certainly helps in improving the overall academic experience of the students. In the process ‘Mentoring System’, each faculty is the mentor of maximum 20 students. First years will have mentors from the Department of Basic Sciences and Humanities and in other years the students will have mentors from their parent departments. Responsibilities of a Mentor: 1. Meet the mentees at least once in a week. 2. Continuously monitor, counsel, guide and motivate in all academic matters. 3. Aid in choice of electives, project, summer training etc. 4. Contact parents/guardians if needed, e.g. academic irregularities, negative demeanour, detrimental activities etc. 5. Advise students in career choices. 6. Keep in touch even after their graduation. 7. Suggest HODs for administrative action. 8. Maintain a detail progressive record of the student. 9. Maintain a record of all discussions with students. Responsibilities of HOD: 1. Meet all mentors of his/her department at least once a month to review the proper implementation of the system. 2. Advise mentors. 3. Initiate necessary administrative action. 4. Keep the Principal informed. Responsibilities of Academic committee: 1. It will discuss mentoring related issues at least twice in a semester and take steps. 2. To advise the students regarding choice of electives, projects, summer training, etc. 3. To counsel and motivate the students in all academic matters either directly or indirectly. 4. To guide the students in taking up extra academic and professional activities for value addition. 5. To contact the parents/guardians of the students in case of their academic irregularities, behavioural changes, etc, through the Head of the Department or College.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The college also follows criteria for internal college evaluation system. The college displays all the circulars and notices on notice boards from time to time. The system provides ways and means to ensure its credibility, transparency and reliability. 1. Class Tests (30): The College conducts two class tests, as prescribed by the university, in each semester of 15 marks each. The questions are set as per the pattern of the university semester examination covering all the modules taught in the classroom as per the lesson plan. The answer papers are evaluated by the faculty members and are shown to the students for verification and revision. 2. Assignment (5): The faculty members of the department design the assignments so meticulously that the students will practice consistently to acquire competence in solving the complex engineering problems. The assignments are made as per the chapters taught in the class with practical applications to the engineering problems. The students are asked to submit the assignments and the faculty members return the assignment copies after making necessary corrections and discussions with the students. 3. Quiz Test (5): The faculty members conduct quiz tests in the classroom. The questions are set in multiple choices and each student is asked to answer the questions in turn. 4. Attendance (5): The college strictly follows the attendance of students for appearing semester examination and award of internal marks. The students having more than 75 attendance are awarded with marks and students having less than 75 are asked to attend extra classes to compensate the shortage of attendance. 5. Surprise Test (5): Such tests are conducted after the end of each module without any prior notice. The questions are set comprising all the chapters of the module. The teachers examine the answer papers and award marks out of five to each student. The absentees of the tests are asked to appear another surprise test on another day. 6. Seminar: Seminars are conducted for all students in classroom on selective and assigned topics related to subject. Presentation skills, subject knowledge, communicative ability, responses given to questions are the criteria to evaluate the performance of the students. 7. Project-work: Every student has to undergo a mini project and a major project during the programme. The faculty members of the department guide the students in designing and analyzing projects based on the complex problems of engineering. The students are required to prepare project report based on field assigned to them. The

teachers evaluate the projects on the basis of the field work done by the students and active participation for completion of project. The students are awarded with grades after successful completion of the assigned projects. 8.

Practical Exam: It is mandatory to conduct practical exams for all the engineering students. Practical exams are conducted in college in accordance with prescribed syllabus. In this activity, each student is asked to appear a test on experiment and has to face viva-voce along with questions asked by the external examiners.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The IQAC has taken active role in the preparation of the Academic Calendar of the institution for two days from 27/06/2016 to 28/06/2016. Members comprising of both teaching and non teaching staff members attended the meeting and expressed their valuable suggestions for the preparation of the Academic Calendar and a smooth monitoring for its successful implementation. After vivid discussion and with a reference to the Academic Calendar prepared by the Biju Patnaik University of Technology, all the members unanimously agreed to formulate the proposed calendar which is to be placed before the Governing Body for approval. After obtaining due approval from the Governing Body, the Academic Calendar was circulated and uploaded in the website of the institution.

2.6 – Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

ACADEMIC PERFORMANCE FOR THE YEAR 2016-17 GITA Bhubaneswar strives to attain superlative performance in its envisioned Goals. Accordingly the institution continuously monitors and upgrades its teaching learning methodology, teachers' development and optimization of the role of mentorship in the

institution. The Institute aims to help students to develop their potential through the provision of a supportive, vibrant and challenging learning environment. All the staff members are involved in building of this learning environment. All students are valued equally during their learning journey in the institute. Accordingly, the curriculum, teaching and learning and assessment at college are student centric. The College has formulated academic committees that aim at enhancing the quality of learning, teaching and assessment across the Institute by providing academic leadership for the continued development of excellence in academic practice. The College is committed to creating an environment where students are supported to achieve their potential and working towards creating an inclusive learning community. In terms of lifelong learning this strategy is intended to be learner centric, recognizing students' prior learning, experience and abilities. This requires the identification of individual learning goals and it will emphasize the importance of reviewing student progress against agreed objectives. Students are active partners with shared responsibilities for their own learning and achievement. This strategy recognizes the need to develop progressively self directed and confident learners with the knowledge, skills, attitudes and values, which enhance their employability and progression opportunities. It acknowledges that students learn most effectively if they are supported as individuals to achieve personal development. The Academic Council of the Institution comprising of all Deans under the chairmanship of the Principal and cooperation from the Institution Academic Advisory Committee, which includes the academia and industry, strives to achieve the aforesaid objectives of the institution. The respective Heads of the Departments and the Advisory Committee of the department in association with the Academic Council of the institution
